Dear Karen,

Congratulations on completing your requirements to become a certified Trauma-Skilled Specialist through the National Dropout Prevention Center.

Your certification verifies your knowledge of and expertise in sharing the Trauma-Skilled Schools Model with others in your organization. By encouraging and participating in the assessment of your school's climate, practices, and culture, you will serve as a leader in efforts to increase student connection and belonging that will encourage more students to remain in school through graduation.

In addition to the knowledge gained through the certification process, certified Trauma-Skilled Specialists will have their name, contact information, and bio posted on the NDPC website. This will allow you to become part of a virtual community of Trauma-Skilled Specialists available to share ideas and strategies with others who may wish to implement the model.

The National Dropout Prevention Center recognizes that students impacted by trauma and stress are highly at risk to drop out of school. These students are particularly in need of adults who will stand up for and with them in their efforts to graduate. Thank you for becoming a part of the growing group of individuals who, as certified Trauma-Skilled Specialists, will help them reach this important goal. Please keep in touch and let me know if I can be of any further assistance to you.

Best wishes,

A handwritten signature in cursive script that reads "Nancy H. Nielsen".
